Meat Science **35** (1993) 403–405

CONTENTS OF VOLUME 35

Number 1

Improved Oxidative Stability of Veal Lipids and Cholesterol through Dietary Vitamin E Supplementation 1
N. J. ENGESETH, J. I. GRAY, A. M. BOOREN & A. ASGHAR (USA)

Effects of High-Pressure Treatment on the Ultrastructure and Thermal Behaviour of Beef Intramuscular Collagen. 17
A. SUZUKI, M. WATANABE, Y. IKEUCHI, M. SAITO & K. TAKAHASHI (Japan)

The Concentrations of Free Magnesium and Free Calcium Ions both Increase in Skeletal Muscle Fibres Entering *Rigor Mortis* 27
R. E. JEACOCKE (UK)

Effects of Meat Quality and Storage on the Breakdown of Adenosine Triphosphate in Muscle from Swine 47
M. J. SEEWALD, P. A. IAIZZO, E. HEISSWOLF & H. M. EICHINGER (Germany)

The Effect of Growth Rate and Ultimate pH on Meat Quality of Lambs . . 63
C. E. DEVINE, A. E. GRAAFHUIS, P. D. MUIR & B. B. CHRYSTALL (New Zealand)

Effect of Feed Protein on Carcass Composition and Meat Quality in Steers . 79
P. BERGE, J. CULIOLI, M. RENERRE, C. TOURAILLE, D. MICOL & Y. GEAY (France)

Effects of Various Cellulose Gums on the Quality Parameters of Low-Fat Breakfast Sausages 93
G. S. MITTAL & S. BARBUT (Canada)

The Effects of Breed and Halothane Sensitivity on Pig Meat Quality . . . 105
M. A. OLIVER, M. GISPERT & A. DIESTRE (Spain)

The Influence of High Temperature, Type of Muscle and Electrical Stimulation on the Course of Rigor, Ageing and Tenderness of Beef Muscles . . . 119
C. HERTZMAN, U. OLSSON & E. TORNBERG (Sweden)

Meat Science **(35)** (1993)—© 1993 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 2

Methodology for Measuring Malonaldehyde as a Product of Lipid Peroxidation in Muscle Tissues: A Review 145
S. RAHARJO & J. N. SOFOS (USA)

The Effects of Antioxidative Treatments on Mutton Flavour/Odour Intensity and Species Flavour Differentiation 171
D. H. REID, O. A. YOUNG & T. J. BRAGGINS (New Zealand)

Comparisons of the Effect of Electrical Stimulation Methods on Postmortem pH Decline in Beef Muscle 183
C. L. KASTNER, J. R. SCHWENKE, P. B. KENNEY, R. E. CAMPBELL, J. A. KENDALL & G. A. MILLIKEN (USA)

Influence of Repeated Restraint and Isolation Stress and Electrolyte Administration on Carcass Quality and Muscle Electrolyte Content of Sheep . 191
J. K. APPLE, J. A. UNRUH, J. E. MINTON & J. L. BARTLETT (USA)

A Relationship between Bovine Fat Colour and Fatty Acid Composition . . 205
G. H. ZHOU, A. YANG & R. K. TUME (Australia)

Tenderness of Ovine *Semimembranosus*: Is Collagen Concentration or Solubility the Critical Factor? 213
O. A. YOUNG & T. J. BRAGGINS (New Zealand)

Special Treatment during Slaughtering in Finland of Cattle Carrying an Excessive Load of Dung; Meat Hygienic Aspects 223
J. RIDELL & H. KORKEALA (Finland)

Effects of Starter Cultures on the Biochemical Characteristics of French Dry Sausages 229
M. C. MONTEL, R. TALON, J. L. BERDAGUÉ & M. CANTONNET (France)

Effects of Biological Source on Cooking and Palatability Attributes of Beef Produced for the Japanese Market 241
J. R. BUSBOOM (USA), L. E. JEREMIAH, L. L. GIBSON (Canada), K. A. JOHNSON, C. T. GASKINS, J. J. REEVES & R. W. WRIGHT (USA)

The Effect of Preheated Tendon as a Lean Meat Replacement on the Properties of Fine Emulsion Sausages 259
D. H. N. SADLER & O. A. YOUNG (New Zealand)

Research Note
Effects of Fattening on Post-Mortem pH of Beef Muscles 269
A. WATANABE, H. SATO, E. TSUNEISHI & M. MATSUMOTO (Japan)

Number 3

Effects of Starter Cultures on the Formation of Flavour Compounds in Dry Sausage 275
J. L. BERDAGUÉ, P. MONTEIL, M. C. MONTEL & R. TALON (France)

Comparison of Sensory Characteristics and Fatty Acid Composition Between Wagyu Crossbred and Angus Steers 289
S. G. MAY, C. A. STURDIVANT, D. K. LUNT, R. K. MILLER & S. B. SMITH (USA)

Maximising the Cost-efficiency of Assay Procedures 299
P. N. JONES & F. D. SHAW (Australia)

Frozen Storage Conditions and Rancid Flavour Development in Lamb . . 305
C. J. HAGYARD, A. H. KEILLER, T. L. CUMMINGS & B. B. CHRYSTALL (New Zealand)

Effect of the RN^- Gene on Ultrastructure and Protein Fractions in Pig Muscle . 313
M. ESTRADE, X. VIGNON & G. MONIN (France)

Potential Role of *Proteus-Providencia-Morganella* Species in Quality Deterioration of Beef 321
L. M. LUCIA, C. VANDERZANT & G. R. ACUFF (USA)

Effect of Freezing, Thawing and Frozen Storage on Physico-chemical and Sensory Characteristics of Buffalo Meat 331
K. S. ZIAUDDIN, N. S. MAHENDRAKAR, D. N. RAO & B. L. AMLA (India)

Effects of Porcine Somatotropin (PST) Administration on the Fat/Lean Content and Processing Properties of Pork Bellies 341
K. E. NANKE, J. G. SEBRANEK, K. J. PRUSA & L. F. MILLER (USA)

Effect of Antioxidants on the Sensory Characteristics and Storage Stability of Aseptically Processed Low-fat Beef Gels 355
A. J. BUTLER & D. K. LARICK (USA)

Lipolytic and Microbial Changes during the Natural Fermentation and Ripening of Greek Dry Sausages 371
J. SAMELIS, G. AGGELIS & J. METAXOPOULOS (Greece)

Contaminant Lactic Acid Bacteria of Dry Sausages Produce Histamine and Tyramine 387
R. MAIJALA & S. EEROLA (Finland)

Hot Water Decontamination of Beef Carcasses for Reduction of Initial Bacterial Numbers 397
M. L. BARKATE, G. R. ACUFF, L. M. LUCIA & D. S. HALE (USA)
